

Georgia Tennessee Alabama Sports Class Race Series

The GTA Race Series is an informal competition; a group of friends that get together around 10-15 weekends a year & fly cross-country. We crew for one another, fly at several sites, share experiences and learn from one another (including several that have flown in Regional, National & International competitions). We enjoy great camaraderie, and have a blast together.

Newcomers & Visitors are always Welcome.

“GTA” stands for Georgia Tennessee & Alabama.
This is where *most* of our pilots are from as well as
where we hold our races. Everyone is always wel-
come to join us regardless where they may be from.

Races usually begin with a pilot's brief. We explain the contest rules & procedures and emphasize safety. We also discuss race strategies & cross country technique. We race with 2 Classes: **A** Class for Experienced racers and **B** Class for Novice racer. The GTA is based on SSA **Sports Class Regional Rules**. This means you can use any type of glider. The handicap system helps equalize the differences in aircraft performance. **You do NOT need the latest machine or avionics to compete.**
